

P.S.H.E. (Personal, Social and Health Education) and Citizenship

The P.S.H.E. and Citizenship curriculum teaches children how to become independent, confident and responsible members of society. It is taught through all curricular areas, as well as in it's own right, through role play and Circle Time activities.

Harriet Budden

Relationships, Sex and Drugs Education

We aim to support parents in giving children an understanding of the physical and emotional changes they go through, as well as teaching them the skills to make informed choices and decide whom to trust.

The policy has been agreed by teachers, governors and parents, and the videos and programmes used to teach sex education may be viewed by parents in advance.
